DETAILED ACTION

This Office action responds to the application filed on 8/27/2001.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16 and 31-46, drawn to a semiconductor device, classified in class 257, subclass 499.

- II. Claims 17-30, drawn to a method of making a semiconductor device, classified in class 438, subclass 128.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product made and process of making the product. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

3. In the instant case unpatentability of the group-I invention would not necessarily imply unpatentability of the group-II invention, since the device of the group-I invention could be made by processes materially different than those of the group-II invention, for example, instead of fabricating the memory device of claim 1 by the method step of

forming a first memory cell to include a chalcogenide material and the method step of forming a second memory cell to include a chalcogenide material, as it is recited in claim 17, a single memory device that includes the chalcogenide material may be formed in a single step, afterwards the single memory cell may be split in two in a subsequent method step.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Papers related to this application may be submitted directly to Art Unit 2814 by facsimile transmission. Papers should be faxed to Art Unit 2814 via the Art Unit 2814 Fax Center located in Crystal Plaza 4, room 3C23. The faxing of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (15 November 1989). The Art Unit 2814 Fax Center number is **(703) 308-7722** or **-7724**. The Art Unit 2814 Fax Center is to be used only for papers related to Art Unit 2814 applications.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Marcos D. Pizarro-Crespo** at **(703) 308-6558** and between the hours of 9:00 AM to 7:30 PM (Eastern Standard Time) Monday through Thursday or by e-mail via Marcos.Pizarro@uspto.gov. If attempts to reach the
